Execution Only Services with Market Insight – the Principles for Success

- Facilitating an easy customer introduction to TEAMtrader, we offer no obligation demo (trial) accounts.
- Utilising the price liquidity of third party providers, our clients' best interest is maintained.
- Our on-line execution only services are augmented by our in-house analysis and insight into the key macro economic variables which impact upon the major world financial markets and their underlying financial instruments.
- All client monies/collateral are held in segregated client accounts

Combining core values within TEAMtrader we seek to build strong, long standing relationships with our clients whilst aspiring to be an independent market leader in innovative products and services.

TEAM Asset Management

Team Asset Management is regulated by the Jersey Financial Services Commission

TEAM offers independent advisory and discretionary bespoke asset management, including execution services across a range of global markets and financial instruments.

Disclaimer: Leveraged Trading carries a high level of risk to capital. Leverage can magnify losses as well as gains and may result in rapid and significant losses to capital. This information does not constitute an offer or inducement to enter into a legally binding contract, and does not form part of the terms and conditions for TEAM products and services. The information provided is not intended as, nor is it a substitute for, personal financial services advice. You are recommended to obtain appropriate independent financial advice prior to investing. This trading strategy may not be suitable for all investors and may not be available in certain jurisdictions. Important note: TEAMtrader users are hereby advised that the amount of equity in their account(s) will continually change according to factors such as their leverage profile and price fluctuations in the underlying market(s) in which they are invested. It is the responsibility of users of the TEAMtrader platform to monitor their risk and equity level at all times and it is wholly their responsibility to ensure any variation or other margin payments are made in a timely manner. Notwithstanding the above and on a best efforts basis, TEAMtrader will endeavour to monitor users' equity to margin level and inform such users of any required margin payments but we are not obliged to inform you if variation margin is payable nor to make a variation margin call. We have no liability to users if we fail to advise that a variation margin payment is payable. Users are advised that in the event of the level of equity to margin falling to 25% or lower, all open market positions and all orders can be closed out with or without giving notice to users. TEAMtrader will take no responsibility for or provide any indemnity against positions which users' desired to be left open and which were closed out under the aforementioned circumstances. In addition, variation margin may not represent users total liability to us, for example, users must also pay in such circumstances any losses that have been incurred on closed positions as well as any other amounts payable under the terms.
